LEARNING CENTRE

“BUILDING BETTER BUSINESS”

-Serious Fun for Creative Corporates-

“Embracing Emerging Technologies”

Amaze yourself by programming and controlling a LEGO robot to behave at your command. Working in a team, using EV3 Mindstorms robots you will write code to control motors and sensors to complete a Space Mission.

“Competitive Solution Building”

Explore how to gear up and and go around using LEGO Education simple machines.

Find the USP of your invention and convince others that it is the latest “must have” gadget.

“Communicating through Play”

Using LEGO Education story visualiser software and the creative power of LEGO bricks your team will come up with a “Breaking News” office scenario. Storytelling is a respected vehicle for speaking the truth. Explore the power of communicating through LEGO and publish your article for all to read .

\$25.00 +gst per person per workshop

\$50.00 + gst per person for a two workshop half day experience
