

Build STEM Confidence and Resilience with LEGO® Learning System

Be in it to win a BricQ Motion set !

Teachers across Australia are going to extraordinary lengths to support the social and emotional well-being of their students, while keeping them engaged in learning. Confidence has a significant impact on learning and the ability for students to thrive in this rapidly changing environment. Join one or all three hands-on workshops to explore how the LEGO Learning System can build confidence and resilience in your Primary and Secondary students for a future in STEM.

BRICQ Motion

Physical Science in Action
for Primary and Secondary
Time 1-2pm

SPIKE Essential

Coding and STEAM
for Early years
Time 2.30- 3.30pm

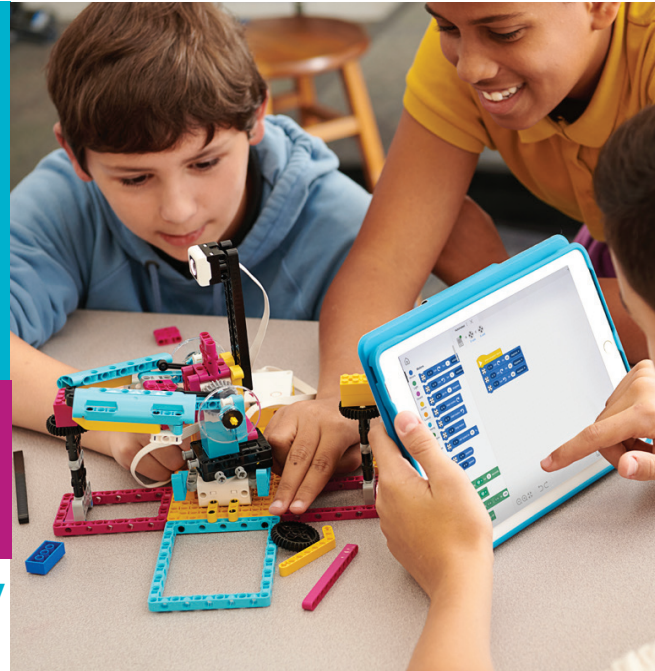

SPIKE Prime

Create Code Innovate
for Middle Years
Time 4pm-5pm

SPIKE™ Essential : STEAM AHEAD for Early Years

NEW LEGO® Education SPIKE™ Essential ensures a progression of STEAM learning year after year, starting in the Early Years. Using the LEGO® Education SPIKE™ App students progress from icon block coding to word blocks based on Scratch. This provides age and skill appropriate tools for developing coding proficiency. The consistent lessons structure builds a strong foundation for easy progression into more advanced learning opportunities with SPIKE™ Prime. As part of the LEGO® Learning System SPIKE Essential provides unlimited possibilities for hands-on, playful STEAM learning.

SPIKE™ Prime : CREATE, CODE, INNOVATE for Middle Years

Accelerate STEM learning with SPIKE™ Prime, a robotics solution for grade level 5-year 9. Explore the lessons and the design challenges that will engage your students to think critically and collaborate to create simple to complex robotic solutions with real world relevance. LEGO® Education robotics solutions build confidence for teachers and students to code with a progression from icon to Scratch based block programming through to text-based coding with Micro Python. In this workshop you will explore SPIKE™ Prime as part of the LEGO Learning System.

BRICQ Motion : Discover Physical Science in Action for Primary and Secondary

Discover how BricQ Motion from LEGO® Education engages Primary and Secondary students in STEM Learning as they experiment with forces, motion, and interactions in the context of sport. BricQ Motion Essential for Early Years and BricQ Motion Prime for Middle years foster an understanding of physical science by providing "hands -on" learning experiences for students and fully supported lesson plans for teachers.
